Non-discrimination Policy*

Triangle Community Foundation actively seeks to promote access, equity, and inclusiveness, and to discourage discrimination that denies the essential humanity of all people. The Foundation's grantmaking policies reflect the belief that organizational performance is greatly enhanced when people with different backgrounds and perspectives are engaged in an organization's activities and decision making. Triangle Community Foundation does not knowingly support organizations that negatively discriminate on the basis of race, color, age, sex, religion, sexual orientation, physical disability or national origin. The Foundation defines "negative discrimination" to include (but not necessarily be limited to) denial of services, employment or volunteer opportunities to any class of individuals in a manner that negatively restricts opportunities of that class of individuals. Does the organization confirm that its philosophy is consistent with this policy?
