

GEORGE H. HITCHINGS LEGACY SOCIETY

Then, Now, and Tomorrow

Dr. George H. Hitchings was a scientist and a visionary. His medical research on life-saving medicines won the 1988 Nobel Prize for Medicine. But “getting Triangle Community Foundation off the ground” was, in his mind and in his own words, the achievement Dr. Hitchings was most proud of.

The George H. Hitchings Legacy Society was established in 1994 to honor individuals who commit resources to philanthropy in a variety of ways. Your legacy gift can create a charitable fund, support specific nonprofits, give to targeted areas of interest, or the community at large. There are a number of ways a legacy gift can be made to the Foundation. Here are just a few:

Become a Hitchings Legacy Society Member

- Include the Foundation as a beneficiary in your [will](#)
- Name the Foundation in an [IRA](#) or other [retirement accounts](#)
- Name the Foundation as beneficiary of a [life insurance policy](#)
- Arrange for the Foundation to receive a [Gift in Trust](#), after you or your family members enjoy lifetime benefits
- Contribute a gift of [real estate](#) (land or buildings) or [other complex / non-cash assets](#)

It is with much gratitude we acknowledge the Hitchings Society Members, who have collectively committed more than \$100 million in future charitable gifts. Their generosity is making a difference in the vitality of our community for generations to come. Because of their compassion and vision, they are making more possible for our region. **Won't you join us?** All members of the Hitchings Legacy Society, even those who prefer to remain anonymous, enjoy:

Membership Benefits

- Access to educational workshops and forums
- Invitations to Foundation events throughout the year
- News about the Foundation's initiatives and impact in the Triangle
